PROFILE

Graduate of an Austrian higher technical college (HTL) with experience in Python, SQL and web development. In my diploma thesis I built a web-based medical knowledge database with FastAPI and SQLite. I also took part in two AI hackathons (Signly, Constellate). I am looking for an entry-level role in software development, IT support or business software / ERP.

EDUCATION

Technologisches Gewerbemuseum (TGM), Vienna **09/2020 – 06/2026**

- Matura & Engineering Diploma (Reife- und Diplomprüfung), Industrial Engineering – Business Informatics
- IT: software development and project management, databases, computer science and information systems (ERP with SAP and Odoo), networks and embedded software, cloud computing and infrastructure
- Business and engineering: operations engineering, business management and commercial law, applied mathematics, applied mechatronics, laboratory work
- Electives: Technically Innovative Projects, Volleyball

WORK EXPERIENCE

SPAR Austria – Retail Associate, Checkout (part-time), Vienna **11/2022 – 05/2024**

- Customer service and checkout; responsible handling of cash and goods.
- Accurate work under time pressure.

PROJECTS

MedKB – Medical Knowledge Base (extension of my diploma thesis) **10/2026**

- Own project: knowledge base with search, automatic classification, roles (admin, doctor, patient) and AI assistance. Example data only, not a medical product.
- Technologies: Python, FastAPI, PostgreSQL, React, TypeScript, Docker. Demo: medkb.onrender.com · Code: github.com/Reczec/medkb

Constellate – Rare Disease Knowledge Graph | Hack-Nation 7th Global AI Hackathon – Vienna Hub **10/2026**

- Team project: a knowledge graph that structures rare diseases by underlying mechanisms rather than name alone.
- Technologies: Python, Next.js, OpenAI API, Vercel. Demo: constellate-omega.vercel.app · Code: github.com/Reczec/constellate

Signly – Real-Time ASL Recognition | HACK_002 24h AI Hackathon **09/2026**

- Browser-based prototype that recognises isolated ASL signs via webcam, running directly on the device.
- Technologies: React, TypeScript, MediaPipe, ONNX Runtime Web, Python. Code: github.com/Reczec/signly

Diploma Thesis – Digital Medical Knowledge Database **2025 – 2026**

- Team project: web-based knowledge database for an AI-assisted medical assistance system; my focus was the knowledge database (managing entries, categories, search and filters).
- Technologies: Python, FastAPI, REST API, SQLite, HTML, CSS, JavaScript, JSON.

SKILLS

Development: Python, FastAPI, REST API, SQL/SQLite, HTML/CSS, JavaScript, TypeScript/React (basics), Git/GitHub
Business & Cloud: SAP ERP (basics), Odoo (basics), Microsoft Azure Fundamentals, MS Office
Languages: German and Turkish (native), English (fluent)

CERTIFICATES & OTHER

Microsoft Certified: Azure Fundamentals (2025) • SAP ERP Fundamentals (2026) • Odoo 18 Business Game (2026) • CLIL Certificate (2026) • Safety Representative (SVP) • Driving licence category B
